

# Monday

## **Junior Legos (PK4-K)**

**11 classes- \$ 495**

With a focus on engineering, we'll help students explore science and math fundamentals through LEGO! Living in New York City, we experience some of the world's most innovative architecture just on our way to school. What better way to educate and excite our kids than by celebrating these famous buildings and their creators while fostering STEM & creative thinking skills. Join us each week as students have a blast building, testing, and exploring the world with lego!

## **Harry Potter Club (Grades 1-5)**

**11 classes- \$ 495**

Calling all aspiring witches and wizards! Join us for this immersive class inspired by Harry's wonderful wizarding world. Each week, students study a different Hogwarts subject and complete a magical project like learning spells, owl making, and more! Weaving improv and theatre games together with arts and crafts, students use their imaginations and creativity to bring the magical series to life. By the end of the session, students will band together to solve a mystery and defeat a dark wizard using all that Harry Potter has taught them!

## **Canvas Art (Grades 1-3)**

**11 classes- \$ 495**

Come explore art through the medium of paint. Each week we'll discover a new technique and subject to create a custom painting on canvas. This class will be a great place for young Picassos to begin their creative journey, having tons of fun and being encouraged to express themselves!

## **Improv Theater (Grades 4-8)**

**11 classes- \$ 495**

In this class, kids will learn basic improv skills, play games and develop communication and performance skills, all while building confidence and learning to work together as a group!

# Tuesday

## **Little Yogi's (PK-K)**

**14 classes- \$ 630**

Join us for an interactive yoga class to get your kiddos moving and reconnected! We'll stretch like puppy dogs, bend like cats and move like cows. After we shake out some excess energy, we'll be still like flowers to invite some mindfulness back into our lives. This class provides a super fun, engaging and truly interactive experience that's perfect for mini yogis of all levels.

## **Woven Wonders (Grades 1-5)**

**14 classes- \$ 630**

Let's explore sewing, knitting, crafting and macrame! Children will learn the basics of textile art with weekly creative projects. From sewing an IPAD pouch, designing a handbag to casting on a stitch, children will express their creativity with a touch of fashionable flair. We'll cover the world of textiles in this fun and artistically expressive class!

# Wednesday

## **Canvas Art (PK4-K)**

**12 classes- \$ 540**

Come explore art through the medium of paint. Each week we'll discover a new technique and subject to create a custom painting on canvas. This class will be a great place for young Picassos to begin their creative journey, having tons of fun and being encouraged to express themselves!

## **Hip Hop Dance (Grades 1-5)**

**12 classes- \$ 540**

Children will explore musicality and the latest dance moves in this fun-filled, high-energy class. We'll groove through a group warm up, in "follow along" dances, and build a repertoire of classic hip-hop moves such as breaking, popping and locking. Developmental skill-building will help refine gross motor coordination and control. Children will build confidence and expand their appreciation of music through the universal language of dance.

## **Chess with Curated Care (Grades 1-3)**

**12 classes- \$ 540**

Gather your board, pawns, rooks, and more for Chess! Children will learn about this historic game, each piece's function, some cool lingo, and even a gambit or two. Whether you're introducing a casual player or the next junior champion, this class will focus on players' full understanding of pieces, positions, and strategy while building focus, sportsmanship and enthusiasm for chess!

## **Running Club (Grade 4-8)**

**12 classes- \$ 540**

Come join the MMS Running club! This club will explore running paths in both Riverside and Central Parks. Children will start with a brief warm up and will run two to three miles each session. No prior distance running experience is required just the willingness to practice an endurance sport. Appropriate running attire required: sneakers and active wear. Rain or shine!

# Thursday

## **Moving & Grooving (PK4-K)**

**13 classes- \$ 585**

Learn the fundamentals of music: rhythm, tempo and beat. Children explore beat and rhythm structures as they engage with songs and instruments that inspire movement and dance. This class focuses on exploration and peer socialization - all while movin' and groovin' to fun and engaging beats!

## **LEGO Explorations (K-1)**

**13 classes- \$ 585**

LEGO Explorations is an introductory engineering and building program for children. Students will use Lego kits to build machines that teach principles like: gravity, potential and kinetic energy, buoyancy and density, probability, torque with gear movement, and more. Real world engineering challenges and themes are used to make projects engaging and fun!

## **MOHR's Explorers (Grades 2-5)**

**13 classes- \$ 715**

Gear up for weekly Central Park EDventures, including shelter building, bird tracking and woodlands hide-and-seek – plus an original variety of awesome outdoor games & activities! This challenging outdoor program builds confidence, while encouraging teamwork, creativity and open-ended education. The possibilities? Endless. The experiences? Memorable. The FUN? Guaranteed!!!

We will be outdoors; please be prepared for all types of weather and visit [www.mohrs-explorers.com](http://www.mohrs-explorers.com) for further information. (Children will return to the school lobby at 5:15)

## **Comic Book Creation (Grades 4-8)**

**13 classes- \$ 585**

Using paper, pen, and coloring materials, we will create an exciting story in the form of a comic book. Kids will learn how to craft an action-packed plot and all about the tricks and tropes used in many of their favorite tales. As the stories about "good guys" and "bad guys" unfolds, kids will observe the ways a person's choices affects other people and situations in imagined scenarios. This exploration of creative writing, linear story-telling, and artistic expression will help kids find their inner hero, who can see the good in everyone! (Grades 1-4)

# Friday

## **Dance Fusion (PK4-K)**

**13 classes- \$ 585**

Join us for a celebration of dance from around the world! This class provides a fun introduction to a variety of dance styles, including ballet, hip hop, modern, ballroom, Latin and more. Students will learn the basic technique of each style, build musicality and strength through weekly exercises, and explore their own personal style as they develop their own choreography. Expand your child's dance repertoire in this unique and enriching class!

## **Crazy Constructions (K-1)**

**13 classes- \$ 585**

Here is your chance to play and build while practicing creative thinking and problem solving skills. Create houses, vehicles, creatures, bridges and so much more. Students will learn about engineering and physics while inventing and creating their own toys and projects. We will provide the materials and the instruction, children will provide the imagination. All materials provided. Some projects may take more than one week to complete. NEW PROJECTS EVERY TERM

## **Inventors Workshop (Grades 2-5)**

**13 classes- \$ 585**

Think it, design it, build it with the team from Dazzling Discoveries. Kids who love to build become inventors as they explore and create using a wide variety of materials. Explore and create using everything from paper & cardboard to lights and motors. Make your own games, toys and inventions. Based on STEM principles of science, engineering, technology and math, kids will invent, make and take home their special projects. All materials provided. NEW PROJECTS EVERY TERM. .

## **Primi Violin- Beginner (All Elementary & Middle School)**

**13 classes- \$ 520**

In this class, we learn violin fundamentals, its different parts and how they function. Then, we learn proper posture and care. Because using the bow is more complex, we first learn note playing through plucking the string. Eventually we integrate the use of the bow while developing the ability to produce a good sound as we draw the bow across the string. Students continue building on the fundamentals by playing through proper exercises and songs that incorporate additional rhythms and the use of all 3 strings
